

Singular™ from Ideal Standard

Solutions for homes

Ideal Standard

Sector book series

Ideal Standard is Singular™
The choice is yours.

Singular™ aims to offer a vast array of solutions from the Ideal Standard catalogue, so you can create your own. From the home to hospitals, we offer bathrooms and washrooms that meet every possible need.

Singular™ is more than just an idea. To illustrate Singular™, we have developed a series of books where both inspiration and solutions come to life to offer endless possibilities and to present real project ideas. From taps to bathroom suites, from design to installation, Singular™ offers infinite solutions to architects, hotel managers and individuals thanks to Ideal Standard's highly experienced teams. Our sector books present well-defined solutions with information on styles, dimensions, colour palettes, technical performance, and specific details for each sector. Every one is a guide to rely on. Now, welcome into our Home book.

Inspiring solutions for tomorrow

Whether it is the latest colour trends, innovative new materials that allow for highly complex designs or sustainable solutions that help saving water, at Ideal Standard we design all products with the needs of our customers in mind. While we can look back on a proud history of pioneering technologies as well as a strong design heritage, we always keep an eye on the future to meet the ever-changing demands of modern living.

Where it all comes together.

From inspiration to installation, Singular™ is our end-to-end journey for creating endless cross-category washroom and bathroom solutions for all of our customers.

It's built on our understanding of customer and sector needs, and brings together our specification expertise, design and performance to create solutions that make life easier for everyone.

Where it all comes together.

Whether you're an architect, a specifier or a tradesperson, Singular™ offers a seamless journey to that one, perfect cross-category solution. Yours.

Meaningful Technologies, Real benefits.

Our products are packed with meaningful technologies aimed at making life easier, safer, better. Here are a few key benefits our products offer.

Sustainability

Since the invention of the first ceramic cartridge in 1968, sustainability has been at the top of our agenda.

CLICK TECHNOLOGY

Mixers that feature our water-saving Click technology, providing 'half' and 'full' flow rate stops.

ECO FLOW REGULATOR

Our Eco Flow regulator reduces the water consumption down to 5L/min on taps & 8L/min on hand sprays and 12L/min on shower head, without compromising on comfort.

BLUESTART TECHNOLOGY

Saves energy by releasing unheated water when the tap is opened from the centred (and most frequently used) position.

Safety & Comfort

TEMPERATURE SAFETY BUTTON

Limits water to 40°C to protect vulnerable users when required.

COOL BODY

Ensures surface does not get hot in use and eliminates the risk of user scalding.

LIGHTMOVE®

The FirmaFlow® cartridge enables finer temperature adjustments between 34°C and 42°C.

IDEAL COMFORT

Always the perfect height between the tap and the basin – adapted to your needs.

TEMPERATURE LIMIT STOP

Can be pre-set to protect vulnerable users when required (installation optional).

A playful blend of past and present

Smaller bathrooms allow you to ease into colour and design that stands out. They offer the opportunity to celebrate their individual character.

The Calla collection balances classic features and subtle, contemporary touches. True sophistication, even in the smallest spaces.

A sophisticated exchange between space and form

Removing the division between bedroom and bathroom creates an open-plan space. It feels bigger and brighter.

Combining an architectural vision with sculptured geometry, the Extra collection is the perfect match for this design concept. It brings harmony to the room, ensuring each basin effortlessly blends in with its surroundings and creates a calm living space.

Muted luxury style

Neoclassical design is all about muted and modest luxury style. It shies away from opulence and extravagance, but still exudes timeless elegance.

In this spacious master bathroom we have combined our Calla collection of ceramics with Joy Neo fittings. The clean lines, simple geometric shapes and perfect symmetry of the two ranges create a truly elegant and indulgent space.

Surroundings that indulge us

The bathroom is the most intimate space in the home. The Linda-X collection allows you to create a design that is as relaxed, as tactile, as enticing as you want it to be. This range of ceramics doesn't adapt to the energy in the room, it influences it.

Linda-X has been inspired by the iconic Linda range, originally created by Achille Castiglioni. The range perfectly represents the seamless fusion of sensual beauty and innovative design.

Celebrating contrast

Eclectic design is the dynamic marriage of carefully selected interior elements from disparate styles, movements and eras. Taking a classic piece and placing in an ultra-modern setting elevates the room and gives it a completely new character.

The simple, neoclassical shape of the Calla basin stands in stark contrast to the bold and bright décor of the room, making it a real focal point. A study in contrast that lets the collection's unique personality shine.

Design that lasts a lifetime

While styles can change drastically over the years, some designs have proven they are here to stay.

Inspired by an icon and re-invented for a modern era, the Linda-X collection offers timeless elegance and lasting beauty. The pieces have been designed beyond function, to become silent companions of everyday life and the co-stars of our daily rituals.

Hygiene

AQUABLADE® TECHNOLOGY

AquaBlade is the ultimate flush technology combining elegant design, superior hygiene and performance.

RIMLS+

The ultimate easy clean solution answering to increasing demands in hygiene.

EASY CLEAN

Soft rub-clean nozzles reduce lime scale and facilitate cleaning.

Installation & Maintenance

EASYFIX®

Installation of the fitting couldn't be easier thanks to pre-assembled components that help you save up to 30% of installation time.

EASY TO TAKE OFF

Allow an easy cleaning - by the push a finger, unclip the seat & cover to wipe the surface clean.

EASYFIX+®

Assembling becomes quicker and faster, with up to 50% time saving on installation time.

SMARTSHINE®

SmartShine® Finishing allows our chrome to last longer. It makes our taps easy to clean and easy to maintain.

Using a regular tube key, push the nut directly against the ceramics and screw. The tap is in place, secured, and perfect sealing is guaranteed.

A palette of creative potential

Colour has the power to impact and enhance our sense of wellbeing. With more colour there is more inspiration.

Our Ipalyss ceramic collection multiplies the possibility for original design with a bold range of new and heritage inspired colours. Paired with our coloured brassware there are nearly endless possibilities for personal expression.

Leaders in performance

From comfort and safety, to hygiene, durability and sustainability, excellence in performance makes everything possible.

Combining experience and expertise allows us to push past limitations into new possibilities, and deliver innovations that set a new standard in washrooms and bathrooms. It's ingenuity at its best. It's leadership in performance.

Diamatec®

Engineered to enjoy.

Striving to achieve the most thin and precise designs in ceramics, Diamatec® was developed using a unique blend of alumina and chamotte. The result is a new material that allows to achieve the near impossible: highly complex and challenging designs with unprecedented strength and durability. Combined with our colour pallet, Diamatec® creates a look to enjoy.

● A unique blend of alumina and chamotte.

● A material that allows highly complex and challenging designs

● Unprecedented strength and durability

FirmaFlow®

Engineered to last.

We pioneered the ceramic disc cartridge in 1969 and this innovation redefined the way people used bathrooms and made it possible to create the single lever tap.

As the ultimate development of the original ceramic disk cartridge, some 50 years on, FirmaFlow® is the undisputed market leader with its innovative engineering and extraordinary durability, comfort and control are lasting for twice as long as the industry standard.

Navigo®

Engineered for control.

Experiencing ultimate control of water temperature and flow has never been easier with Navigo®, supported by the hidden technology of the Easy-box. It's technology you can rely on.

• Sleek, minimalist look for the modern bathroom.

• Single push-button control of temperature and water flow.

• Precise and consistent temperature settings.

RimLS+®

**Engineered
for hygiene.**

With every flush, RimLS+® delivers a powerful whole-bowl clean with no place for bacteria to hide. Splashfree and easier to clean, RimLS+® is the go-to solution for busy bathrooms.

ProSys®

**Engineered
for your peace
of mind.**

The ProSys® installation system provides complete pre-wall solutions for all washroom fixtures: toilets, bidets, basins and showers. With different products for solid and dry wall applications, ProSys® is ideal for a wide variety of projects. The versatile range combines seamlessly with ideal Standard's range of ceramics and fittings to ensure optimal performance. With end-to-end quality control and exceeding testing standards, the ProSys® system provides complete peace of mind.

Aquablade®

Engineered for hygiene.

Silent, superior, splash-free flushing, even at low water volumes. For spaces where hygiene is paramount, and for washrooms where first impressions are essential, AquaBlade® is the ultimate design solution.

CLEANER
AquaBlade® Technology ensures 95% of the surface is cleaned every time.

QUITER
AquaBlade® is proven to be up to 25% quieter than equivalent models.

SMARTER
More effective and efficient use of water compared to standard flushes.

Interpreting weightlessness

White evokes purity and freshness alongside elegance and sophistication. Because of its ability to reflect all light, it makes spaces appear larger and more open.

The Connect Air collection offers all the components needed to create an inviting and modern bathroom. Drawing inspiration from nature and featuring fine edges and slim, tapering profiles make the design extremely versatile.

Dare to be different

Dark colours make a room feel mysteriously attractive because of their unfathomable look. Enveloped in dusky walls, floor and ceiling, this all-black design creates a unique sensory embrace.

With its sleek and subtle features, the Connect Air range is careful not to distract from the silky black finish, while the bold design and striking finish of the Cerafine O range perfectly matches the dark and moody look

A space of serenity

Stress is a defining feature of contemporary life which makes it essential to build spaces that promote calm. Embracing earthy hues, subdued lighting and soft contours results in a bathroom that enhances holistic wellbeing.

Strada II stands out for its distinctive geometric shapes featuring soft angles, fine edges and contemporary curves. Combined with taps from the striking Edge range and modular Adapto furniture this sophisticated collection allows you to create places of tranquillity.

Leave the ordinary behind

Black embodies sophistication and elevates any room in an instant. Adding a touch of black to an otherwise neutral colour scheme creates interest and visual contrast.

Featuring a strong design softened by rounded shapes, the Cerafine O collection is sure to make a statement in your home. Combining the silk black brassware with the crisp white ceramics of the Strada II range results in a modern graphic interior.

Embracing purity

A clean, neutral colour palette not only creates an inviting atmosphere but also a timeless, elegant look.

Featuring soft oval shapes, slim edges and pared-back design elements, the i.life A collection adds a touch of class and simple sophistication to any room. Different furniture options as well as a variety of sizes and finishes make the range extremely versatile, giving you the freedom to adapt it to your personal style and needs.

A sophisticated statement

Black is the undisputed symbol of sophistication, making it a popular choice in interior design. Adding a couple of black statement pieces elevates a room without overpowering it.

The soft geometries and organic, cylindrical shape of the Ceraline brassware collection bring simple, minimalist beauty to this design, while the Ceratherm C shower mixer and Ultra Flat S tray add a touch of class.

Where practicality meets beauty

Bathrooms are a place of escapism and relaxation but also of daily use. The i.life B collection has been specifically designed to meet the demands of everyday living.

Standing out for its sleek contours, gentle curves and round edges, the range effortlessly creates an accessible and contemporary look. The calm and simplicity of its pure lines shapes a place where practicality meets beauty – a peaceful, complete bathroom experience.

Elevate your space

Combining a modern interior with the functional benefits of the i.life B range results in a bathroom that can be enjoyed day after day.

The collections welcoming dimensions and silhouettes aim to provide more comfort, while the clean geometric look and pure shapes create a contemporary space that embraces style and strength in equal measure. The classic Ceraplan brassware collection complements the ceramics with a modern, slim design.

Considered design

A lack of space shouldn't result in a compromise on style and function. The i.life S range is full of space-saving features that help you get the most out of your room, bringing beauty into your home regardless of its size or shape.

The collection's unpretentious and well-thought-out design creates an understated elegance, even in the smallest bathroom.

Your everyday retreat

A ritual dating back 4000 years, bathing continues to have a special place in the modern home. As well as serving a practical function, it remains an instinctive way to melt away the stresses of everyday life.

The i.life B collection offers everything needed to create a tranquil sanctuary but still includes practical features for everyday use.

Creating the perfect balance

Black can feel cold and harsh but combined with natural materials and light colours it creates a very relaxed atmosphere. Achieving the right balance is key in making a room feel comfortable and calm.

With its slender form and characteristic curves, the Tesi collection blends into its surroundings fluidly. The silk black finish gives the range a contemporary twist, making it a bolder design statement that results in a relaxed and subtle elegance.

Harmony is perfection

Focussing on simplicity, lightness and functionality in design elevates the beauty of everyday objects. Combining natural tones, pale wood finishes and soft whites creates a space that is minimalist but warm and inviting at the same time.

The subtle curves of the Strada II collection lend themselves perfectly to shape a personal and relaxed room. The wide choice of basin options paired with the flexible Adapto range offers endless possibilities for self-expression.

A canvas for living

Smaller homes benefit from practical design elements that maximise the space and make them feel inviting. Clean lines and contemporary forms help not to overwhelm the room.

With reduced dimensions but still plenty of storage space, the i.life S collection helps you to unlock the full potential of your bathroom. Wall-hung units, slimline furniture and a neutral colour scheme all come together to create a truly charming interior.

Designed for independence

One does not need to sacrifice beauty to achieve a bathroom that is practical and suits different mobility needs. However, it is important to strike the right balance between style and functionality.

The Connect Freedom collection offers both. Featuring a wide selection of accessible basins, baths, showers and WCs, this inclusive range ensures your bathroom is as accommodating as it is aesthetically pleasing. Thoughtful design for an independent lifestyle.

Make a style statement

Today's kitchens are all about smart technologies and stunning designs. Because of their frequent use, finding the right balance between form and function is especially important when it comes to kitchen taps.

Applying years of know-how in the fittings sector and our expertise in design, enables us to offer a wide range of high-quality taps that are not only effortless to use and ergonomic but also water saving and extremely durable.
